

Have you ever seen perfectly shaped food not ever going bad ?

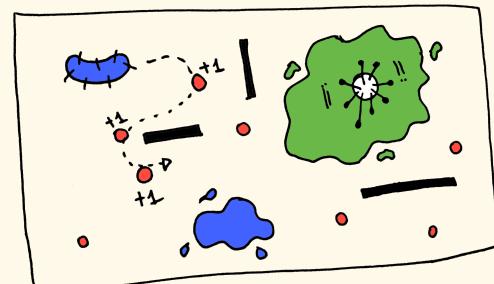

Have you ever wished that you could do something about it ?

## NOW IS YOUR CHANCE!

1 Pick your bacteria type

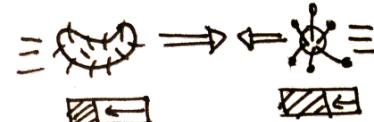

2 Gather resources...  
it makes you stronger

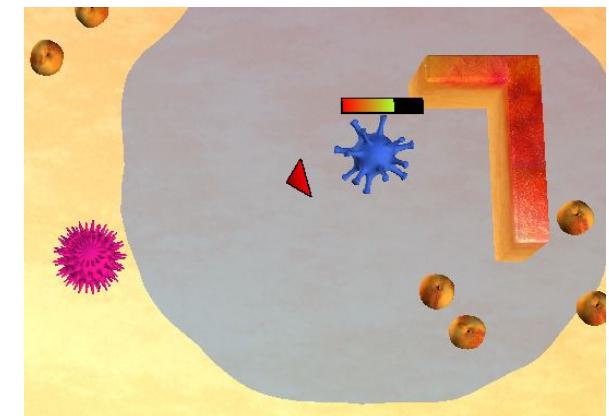

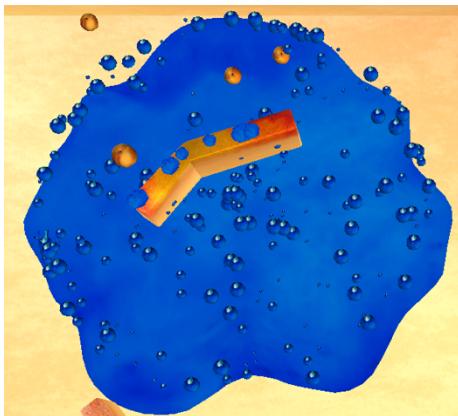

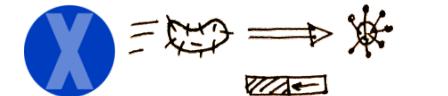

3 Explode!!  
To rot part of the food

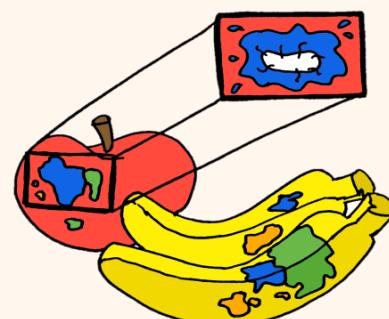

BEWARE of other bacteria!  
They will try to sabotage you...

Battle to rot the food... in your own way!

Bacteria fight on a microscopic scale on the surface of the food.  
Your job? Rot the food before than anyone else!
